Tableau Software

Are you tired of manually creating charts, presentations and email updates in three different applications for a report that you need to recreate every week or month? What if there were a tool that combined all of that automatically? This course introduces you to Tableau, a visualization tool. We take you through the program's layout and compare it to Microsoft Excel's. Exp

Modules Studied

Module 1: Tableau Software Introduction

Module 2: Maps, Shapes and Conditions

Module 3: Charts and Animation

Module 4: Course assessment
